Area of support: Protection of the environment and climate change

## Grant application evaluation results in the Area of support: Protection of the environment and climate change

### Priority area 1 – Public participation, awareness-raising and active citizenship:

Successful Grant applications listed according to the evaluation results:

Code	Applicant	Project	Requested amount	Grant
ZP-2-007	ZMOS	Increasing participation of municipalities and the public in EIA processes	38,007 €	38,007 €
<p>The goal of the project is to apply interactive and participatory techniques of target group involvement in EIA processes and provide the most effective transfer of gained experience directly to the daily practice of municipalities. In the project, new methodology materials will be prepared for municipalities, ZMOS co-ordinators and active representatives of the public. Concrete EIA processes will be managed in 3 selected municipalities and new legislative initiative will be prepared in order to improve conditions in relation to EIA. At least 250 representatives of the public will take part in public participation.</p> <p>Partner: Communesektorens organiosasjon – The Norwegian Association of Local and Regional Authorities</p>				
ZP-2-008	VIA IURIS	Green for environmental participation	29,925 €	29,925 €
<p>To involve citizens in environmental decision-making, to support their participation by legal tools and to use public pressure for implementation of prepared legislative change opening access to environmental justice. The project includes providing support to at least 35 citizens taking participation in decision-making, consultation to at least 30 people and on-going providing information to at least 60 citizens.</p>				
<b>Total</b>			<b>67,932 €</b>	<b>67,932 €</b>
